

April

Sew Along selection for the 4th Saturday of the month, April 24:

50" x 60"

Background....8 $\frac{3}{8}$ yd cuts

Diamonds....4 $\frac{1}{2}$ yd cuts

Binding.... $\frac{5}{8}$ yd

Looks like we're still at it so here's a simple reminder – the purpose of our sew along sessions is to connect with each other while social distancing for our own safety. That means if this quilt turns out well, it's yours; if it doesn't live up to your expectations, it qualifies for community service. It could also be made in a smaller version that is 3 rows across and 4 rows down. After buying the pattern and seeing how the blocks are sewn together, you get to do the math to figure out how much less fabric you will need : o) Note: If you solve the math problem, please share the solution with the rest of us.
